🧬 Reporte de Mutaciones - AccountPhoneChangeTrigger.trigger

Fecha: 7/8/2025, 11:12:48 AM

#	Archivo Mutado	Descripción	Resultado del Test	Recomendación
1	AccountPhoneChangeTrigger.trigger_mut1.cls	📝 Description: Change the condition from `!=` to `==` in the `if` statement to incorrectly trigger the logic when the phone numbers are the same.	✖ Falló	◉ Test válido
2	AccountPhoneChangeTrigger.trigger_mut2.cls	📝 Description: Remove the insertion of `PhoneChange__c` record to prevent logging of phone changes.	✖ Falló	◉ Test válido
3	AccountPhoneChangeTrigger.trigger_mut3.cls	📝 Description: Change the assignment of `acc.Description` to a different message, affecting the test validation.	✖ Falló	◉ Test válido
4	AccountPhoneChangeTrigger.trigger_mut4.cls	📝 Description: Assign `null` to `change.NewPhone__c` to simulate a failure in capturing the new phone number.	✖ Falló	◉ Test válido
5	AccountPhoneChangeTrigger.trigger_mut5.cls	📝 Description: Move the `insert change;` statement outside the loop to prevent logging multiple phone changes in a bulk update scenario.	✖ Falló	◉ Test válido
